EDUCATION

Govind Ballabh Pant University of Agriculture and Technology <i>Bachelor of Technology in Computer Engineering</i>	Pantnagar, Uttarakhand, India October 2022 – June 2026
Indian Institute of Technology, Madras <i>Bachelor of Science in Data Science and Applications</i>	Chennai, Tamil Nadu, India June 2023 – Present

EXPERIENCE

Executive Member <i>The Robotics Club, G. B. Pant University of Agriculture and Technology</i>	July 2024 – May 2025 Pantnagar, Uttarakhand, India
• Built a universal radio controller for 4x4 control of cars and drones. Also coordinated multiple events and projects.	
Member <i>The Robotics Club, G. B. Pant University of Agriculture and Technology</i>	September 2023 – June 2024 Pantnagar, Uttarakhand, India
• Built a Wi-Fi smart door lock with remote access and an automated plant monitoring system using real-time data.	

PROJECTS

Stress Management System <i>ESP32, FastAPI, scikit-learn, Next.js, Prisma, PostgreSQL</i>	May 2026 – June 2026
• End-to-end stress detection pipeline: ESP32 streams BVP/EDA/temperature to a FastAPI ML microservice (Random Forest, 15 HRV+EDA features, Butterworth filtering) on Render; Next.js/PostgreSQL dashboard on Vercel visualizes live sensor trends across the full embedded → ML → web stack.	
• GitHub: github.com/RishiAP/stress-management-system	Live: stress-management-system-beige.vercel.app
Smart Parking Management	Feb 2026 – May 2026
<i>Next.js, Prisma, PostGIS, QGIS, Mapbox GL, Clerk, Upstash Redis</i>	
• Real-time parking system with PostGIS geometry for spatial slot data, QGIS for spatial modeling and lot plot generation, DB triggers for live availability counts, Mapbox GL map-based booking, token-hash reservation ownership, and Upstash Redis + TanStack Query for slot caching.	
• GitHub: github.com/RishiAP/smart-parking-management	Live: smart-parking-management-gezm.vercel.app
Resume Matcher AI <i>FastAPI, SQLAlchemy, Celery, Next.js, TypeScript</i>	March 2026 – May 2026
• LLM-powered resume screening platform with async Celery workers for resume parsing; backend-first OpenAPI workflow regenerates TypeScript types from FastAPI schema changes, keeping frontend/backend contracts in sync.	
• GitHub: github.com/RishiAP/resume-matcher-ai	
NextICron Docs <i>Next.js, Prisma, PostgreSQL, Redis, Tiptap, LDAP Auth, JWT</i>	February 2026 – March 2026
• Built a secure multi-library documentation platform with versioned docs, in-app rich-text editing (Tiptap → Markdown), nested hierarchies, per-library RBAC, direct LDAP integration, three-token auth (JWT + rotating refresh + session cookies), and Redis caching.	
• GitHub: github.com/RishiAP/nexticron-docs	

LEADERSHIP

Technical Head <i>The Robotics Club, G. B. Pant University of Agriculture and Technology</i>	May 2025 – June 2026 Pantnagar, Uttarakhand, India
• Managed robotics projects and events, fostering collaboration among 40+ members.	

TECHNICAL SKILLS

Languages: Java, JavaScript/TypeScript, Python, PHP, Bash
Frameworks: Next.js, React, Node.js, Express.js, Flask, FastAPI, Prisma, Pinia, Tailwind CSS, JavaFX
Databases: PostgreSQL, MySQL, MongoDB, Neo4j, Supabase
Developer Tools: Git, VS Code, Linux, Redis, Upstash, Celery, Docker, Postman, Firebase, Clerk, Vercel, LaTeX
Libraries/Tools: Mongoose, Redux, TanStack Query, ShadCN, Axios, JWT, Quill.js, Chart.js
IOT Devices: ESP 32, STM 32, ESP 8266, Raspberry Pi Pico, Arduino
